

Enhance IS210™

High-End SATA/SAS Removable Disk Enclosure

www.enhance-tech.com

Product Overview

Enhance Technology has focused on the market need for a removable disk enclosure that raises the bar of existing storage modules by offering a greater level of quality and innovative conversion options that will revolutionize the delivery of professional storage systems worldwide. The IS210 is available in SATA I/II 3Gbps and SAS interfaces with SAS/SATA host interfaces. Premium-quality, removable disk module for professional integration & OEM applications. A modern all aluminum design addresses thermal & security concerns by integrating a heat-dissipating precision crafted chassis with a rugged, key-lock disk and best-in-class brushless cooling fan.

Increase Storage Utilization

IS210 dramatically improves storage utilization by allowing users to interchange and integrate available storage technologies, allowing you to use the latest in storage connectivity without sacrificing your original drive investment. No other removable disk module offers the quality and flexibility found in the IS210 series. Both SATA and SAS models feature the same commitment to reliability and outstanding performance that makes Enhance the new standard in removable disk storage.

Data Protection

Enhance Technology has extended the benefits far beyond the typical "mobile rack" purchase by including a limited warranty that covers your investment for a period of 3 years, ensuring that your investment in technology will hold until the next generation of connectivity comes around.

Ideal Application

- Server and RAID storage
- Enterprise storage systems
- Professional video applications
- Professional digital audio workstation storage
- Backup/data archiving
- Industrial & embedded computer integration
- Telecommunication & security systems
- Rackmount server integration
- Digital cinema playback systems
- Educational institutions
- Military & rugged system integration
- Scientific & test equipment

Features & Benefits

- Rugged steel & brushed aluminum construction
- Interchangeable disk interface options
- True hot-swap for both SAS & SATA HDDs
- Standard 5.25" CD-ROM size enclosure
- Ultra quiet magnetic levitational cooling
- Rated to support 15K drives
- MDI drive protection
- Alarm and alarm mute function

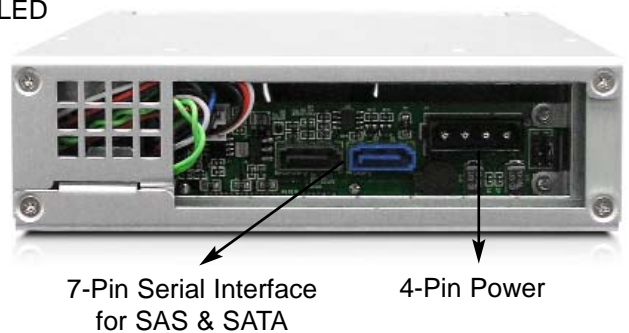

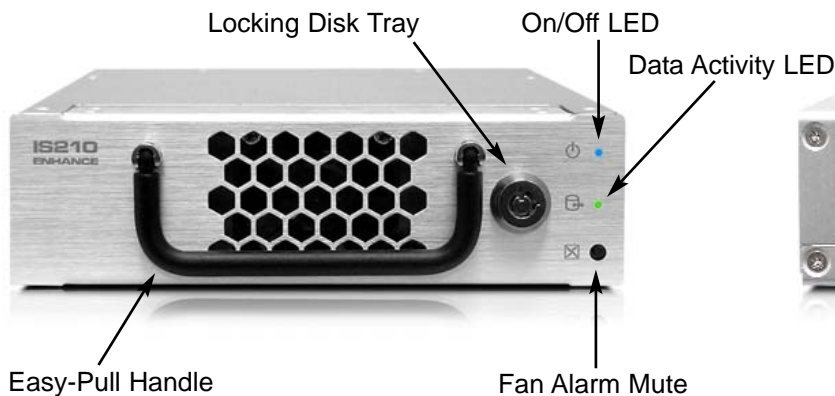

Where Storage Begins

Enhance IS210™

High-End SATA/SAS Removable Disk Enclosure

MODELS	DESCRIPTION
Enhance IS210 S	Silver Chassis with SATA/SAS disk interface and SATA/SAS host interface
Enhance IS210 B	Black Chassis with SATA/SAS disk interface and SATA/SAS host interface
Enhance IS210 ST	Silver tray for IS210 S with brushless high-performance cooling fan
Enhance IS210 BT	Black tray for IS210 B with brushless high-performance cooling fan

Enclosure Specifications

- **Description:** 5.25" removable disk module for 3.5" disks
- **Disk Support:** Both SAS & SATA 3Gbps disk drives
- **Host Support:** 7-pin, SATA 3Gbps interface
- **Power:** Standard 4-pin power connector
- **Cooling Fan:** High-end ball-bearing 4cm x1
- **Security:** Passive non-electronic locking disk tray
- **Indicators:** ON/OFF LED, disk activity LED
- **Controls:** Alarm mute button
- **Dimensions:** 8.25" L x 5.25"W x 1.75" H
- **Weight:** 3.1lbs w/o disk drives; drive tray 1.6lbs
- **Ergonomics:** Easy-pull tray handle
- **Colors:** Available in black or brushed aluminum finish
- **Warranty:** 3-Year Limited Manufacturer Warranty
